Nunna Sai Gowtham

Bangalore, India | +91 81065 62044 | nvhrsgowtham03@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software AI Developer with 2+ years of experience building AI-powered document processing, computer vision, and data analysis systems. Skilled in OCR, image processing, and prompt engineering, with hands-on experience delivering full-stack applications (FastAPI, Flask, React) and deploying them with CI/CD. B.Tech in Computer Science (AI/ML) with a strong foundation in Python, machine learning, and NLP. Highly productive with AI-assisted development tools and keeps up to date with the latest AI technologies.

WORK EXPERIENCE

Mindlinks Private Limited Jun 2024 – Present
Software AI Developer *Bangalore*

Historical Document Image Processing & Information Extraction System
Python, OCR, Prompt Engineering

- Built a system that reads historical documents in multiple languages (mainly Italian and Ukrainian) using OCR and shows where each piece of extracted text appears on the original image.
- Used AI prompts to turn the extracted text into structured records and fix OCR and spelling errors, working with archivists and language experts to improve accuracy.

Automated Camera Capture & Image Validation System
Python, FastAPI, OpenCV, React, Google Cloud Vision

- Built a full-stack system that automates high-resolution document capture with tethered Sony A7 cameras through Capture One, including automatic RGB colour calibration and focus assistance.
- Developed an image validation engine with 9 automated quality checks: blur, skew, folds, histogram clipping, orientation, duplicates, object detection, file integrity and file format.

Stock & Options Technical Analysis Engine
Python, Pandas, TA-Lib, Flask, PostgreSQL, GitHub Actions

- Built an engine that analyses US stocks and ETFs daily, finding trends, candlestick patterns, support and resistance levels, and reversal signals, and suggests option strategies using ORATS data.
- Deployed it on a Linux server with a web dashboard, automated Excel reports and a CI/CD pipeline (GitHub Actions) for testing and deployment.

EDUCATION

SRM Institute of Science and Technology 2024
B.Tech, Computer Science and Engineering (Specialization in AI/ML) *CGPA: 8.41*

TECHNICAL SKILLS

Programming Languages	Python, SQL, JavaScript
AI / Machine Learning	Machine Learning, Computer Vision, NLP, OpenCV
Document AI & LLMs	OCR, Image Processing, Prompt Engineering, Google Cloud Vision
AI-Assisted Development	Claude Code, ChatGPT
Backend & Data	FastAPI, Flask, React, Pandas, NumPy, PostgreSQL
Cloud & DevOps	Git, GitHub Actions (CI/CD), AWS S3
Core Computer Science	Data Structures & Algorithms (DSA)

PROJECTS

Game Using Hand Gestures | *Python, Machine Learning, Computer Vision* GitHub

- Developed a hand-gesture recognition system to control a game using computer vision and machine learning.
- Implemented real-time interaction through webcam input for hands-free gameplay.

CERTIFICATIONS & UPSKILLING

- **AWS** – Machine Learning
- **MATLAB** – Image Processing
- **Kaggle** – Python
- **Accenture** – Virtual Internship

ACTIVITIES & ADDITIONAL INFORMATION

- Participated in a hackathon at SRMIST, gaining collaborative problem-solving and project experience.
- **Languages:** English, Telugu, Tamil, Hindi

POSITIONS OF RESPONSIBILITY

- Committee Head – Transportation

HOBBIES & INTERESTS

Badminton (District-level medalist) · Music · Travelling · Cooking
